*megawatts **cubic metres per day ***petajoules

DIVERSIFIED EARNINGS

* Excludes Corporate & Other segment

Adjusted earnings are defined as earnings attributable to Class I and Class II Shares after adjusting for the timing of revenues and expenses associated with rate-regulated activities. Adjusted earnings also exclude one-time gains and losses, significant impairments and items that are not in the normal course of business or a result of day-to-day operations. Certain statements in this document contain forward-looking information. Please refer to our forward-looking information disclaimer in ATCO's management's discussion and analysis for more information.

Q1 2016 RESULTS

ATCO REVENUES

ATCO ADJUSTED EARNINGS

STRUCTURES & LOGISTICS

- Higher earnings were mainly as a result of higher occupancy levels in the Lodging business and higher Modular Structures project activity, as well as business-wide cost reduction initiatives. Partially offsetting this increase were reduced profit margins and lower Space Rentals and Workforce Housing utilizations and rental rates.
- In April 2016, ATCO announced that it is expanding its international modular structures business by acquiring 50 per cent ownership of Sabinco Soluciones Modulares S.A. from Sitrans Servicios Integrados de Transportes Ltda. Sitrans will retain 50 per cent ownership of the company, which will now operate under the name ATCO-Sabinco S.A. The transaction included the purchase of a land position and the provision of funds for a future manufacturing facility.

ADJUSTED EARNINGS

ELECTRICITY

- Higher earnings were primarily due to continued capital investment and growth in rate base within Regulated Electricity and business-wide cost reduction initiatives. In the first quarter of 2015, Regulated Electricity earnings were reduced by the one-time earnings impact resulting from several retroactive regulatory decisions that were received in that quarter; and Non-regulated Electricity included the positive earnings impact from the amortization of accumulated incentives associated with the Thermal PPAs.
- From 2016 to 2018, ATCO Electric Distribution and ATCO Electric Transmission plan to invest \$2.1 billion in the Regulated Utilities from 2016 to 2018 and \$1.1 billion of capital investment is planned for the Fort McMurray 500 kV Project.

ADJUSTED EARNINGS

PIPELINES & LIQUIDS

- Higher earnings were primarily due to continued capital investment and growth in rate base and business-wide cost reduction initiatives. In the first quarter of 2015, Regulated Pipelines & Liquids earnings were reduced by the one-time earnings impact resulting from several retroactive regulatory decisions that were received in that quarter.
- The Company continuously reviews opportunities to divest non-core assets. In January 2016, ATCO Energy Solutions sold its share of the Edmonton Ethane Extraction Plant. The \$21 million of proceeds will be deployed for continued capital growth in industrial water infrastructure and hydrocarbon storage in Alberta's Industrial Heartland region.
- From 2016 to 2018, Pipelines & Liquids plans to invest \$2 billion to modernize Alberta's and Australia's natural gas transmission and distribution networks and add the capacity needed to meet the growing demand for natural gas and \$100 million in capital investment for hydrocarbon storage projects and a natural gas pipeline in Mexico, both secured under long-term contracts.
