## ATCO REPORTS HIGHER FIRST QUARTER 2019 EARNINGS

**CALGARY, Alberta - ATCO Ltd. (TSX: ACO.X, ACO.Y)**

ATCO today announced first quarter 2019 adjusted earnings of \$112 million, or \$0.98 per share, compared to \$99 million, or \$0.87 per share, in the first quarter of 2018.

Higher first quarter earnings were recorded in Structures & Logistics, Canadian Utilities, and Neltume Ports. Stronger earnings were mainly due to commencement of work on the LNG Canada workforce accommodation project in Structures & Logistics, increased Alberta power market prices and ongoing growth in the regulated rate base in Canadian Utilities, and earnings contributions from our recent investment in Neltume Ports.

In the first quarter of 2019, \$343 million was invested in capital growth projects. ATCO invested \$34 million in various projects including the acquisition of an additional interest in a port held by Neltume Ports, and the expansion of Structures & Logistics' global mobile trailer rental fleet. Canadian Utilities invested \$213 million in regulated utilities and \$96 million in long-term contracted assets including Alberta PowerLine.

### RECENT DEVELOPMENTS

#### Structures & Logistics

- Our Modular Structures division began construction on the LNG Canada workforce accommodation contract in the first quarter of 2019 and will continue work until early 2021. The 4,500-person facility is being built to house workers involved in the construction of LNG Canada's natural gas liquefaction and export facility in Kitimat, British Columbia.
- Modular Structures was awarded a \$70 million contract for the installation and rental of a 1,500-person camp for fire disaster relief in Chico, California. Our Frontec division was also awarded a \$20 million contract for this camp's maintenance including food services, housekeeping and janitorial services. The contracts began in April 2019 and will continue until early 2020.
- Modular Structures was awarded a \$50 million contract for the relocation of 800 rooms from the Wheatstone LNG Project in North Western Australia. The contract began in March 2019 and will continue until early 2020.
- Modular Structures and Frontec were awarded contracts with a total value of \$15 million for the Site C Clean Energy Project in British Columbia. Modular Structures will provide

an additional 150 workforce housing accommodation rooms on rent and Frontec will provide operations and maintenance services for these rooms on a 42-month contract. The contract will begin in May 2019 and will continue until late 2022.

### Canadian Utilities

- In March, the Fort McMurray West 500-kV Transmission Project was energized three months ahead of schedule, on-budget, and with an impeccable safety record. This 508-km transmission line, running from just west of Edmonton to Fort McMurray, will provide essential electricity, greater reliability and enhance the transmission system to meet growing demands in northern Alberta.
- Strategic reviews are ongoing for Canadian Utilities' ownership positions in Alberta PowerLine and Canadian electricity generation assets.

### Neltume Ports

- In February, Neltume Ports acquired an additional 15 per cent ownership in Terminal Puerto de Arica S.A. (TPA), bringing its total ownership of TPA to 50 per cent. This will allow Neltume Ports to exercise operational control and therefore strengthen its port operator role in the concession. TPA is a container port located in northern Chile with a diversified cargo mix mainly servicing Bolivian trade. ATCO paid \$9 million for its equity share of this investment.

### Corporate

- On April 4, ATCO declared a second quarter dividend for 2019 of 40.48 cents per Class I Non-Voting and Class II Voting Share.

## FINANCIAL SUMMARY AND RECONCILIATION OF ADJUSTED EARNINGS

A financial summary of the consolidated subsidiaries of ATCO and a reconciliation of adjusted earnings to earnings attributable to Class I and Class II Shares is provided below:

(\$ millions except share data)	For the Three Months Ended March 31	
	2019	2018
Consolidated adjusted earnings <sup>(1)</sup>	112	99
Unrealized gains (losses) on mark-to-market forward commodity contracts <sup>(2)</sup>	3	(9)
Rate-regulated activities <sup>(2)</sup>	(3)	(1)
Other <sup>(2) (3)</sup>	—	1
<b>Earnings attributable to Class I and Class II Shares</b>	<b>112</b>	<b>90</b>
<b>Weighted average shares outstanding (millions of shares)</b>	<b>114.3</b>	<b>114.4</b>

(1) Adjusted earnings are earnings attributable to Class I and Class II Shares after adjusting for the timing of revenues and expenses associated with rate-regulated activities and unrealized gains or losses on mark-to-market forward commodity contracts. Adjusted earnings also exclude one-time gains and losses, significant impairments, and items that are not in the normal course of business or a result of day-to-day operations. Adjusted earnings present earnings on the same basis as was used prior to adopting International Financial Reporting Standards (IFRS) - that basis being the U.S. accounting principles for rate-regulated entities - and they are a key measure used to assess segment performance, to reflect the economics of rate regulation and to facilitate comparability of ATCO's earnings with other Canadian rate-regulated companies.

(2) Refer to Note 4 of the Consolidated Financial Statements for detailed descriptions of the adjustments.

(3) The Company adjusted the deferred tax asset which was recognized as a result of the Tula Pipeline Project impairment. The adjustment is due to a difference between the tax base currency, which is the Mexican peso, and the U.S. dollar functional currency.
