

# DISTRIBUTED GENERATION

---

**ATCO**

---

# DISTRIBUTED GENERATION YOU CAN TRUST

From communities to industrials, locally or globally, we offer a wide range of customizable and modular electricity generation solutions to power your remote or grid-connected operations.

## AFFORDABLE AND RELIABLE POWER WHERE AND WHEN YOU NEED IT

---

As energy markets are changing globally, you want to tap into solutions that give you a power supply that is efficient and reliable. That's where we come in.

From modular operations to large cogeneration plants, we design, build, own, operate and maintain natural gas-fired generation across Canada and around the world, and we have done so for decades.

### ■ Modular Generation

Our fleet of fuel-flexible units can be rapidly deployed to help you realize the benefits of onsite electricity generation – exactly where you need it and when you want it.

### ■ Modular Cogeneration

High-efficiency cogeneration systems (electricity + steam/heat) can be implemented in a short time period and supported with flexible commercial arrangements.

## HOW OUR SOLUTIONS WORK FOR YOU

---

### With ATCO, you can:

- Predict and manage electricity costs while you reduce OPEX
- Increase the reliability of electrical service to your operations
- Burn low-value fuel gases to create electricity or better leverage excess fuel gas that would otherwise be flared
- Quickly deploy a scalable and flexible solution to your site, with concept to energization in months – not years
- Take advantage of a less carbon-intensive form of electricity service for remote locations

## WHY ATCO

### Expert industry knowledge in:

- Generation technologies
- Fuel gas management and transportation
- Grid management and interconnection
- Control systems, operations and maintenance

When you partner with our team, you leverage our deep understanding of the global energy industry. ATCO is known for its industry-leading expertise developing, building and operating independent power generation facilities to provide our customers with custom and cost-effective power solutions.

# ONE COMPANY, INFINITE POSSIBILITIES

---

We serve more than two million customers around the world, delivering innovative, sustainable and integrated solutions in Structures & Logistics, Electricity, Pipelines & Liquids, and Retail Energy.

From the delivery of efficient and reliable energy for homes, businesses and communities, to affordable temporary and permanent structures, we build communities, energize industries and deliver customer-focused infrastructure solutions like no other company in the world – anytime, anywhere.

**ATCO** always there.  
anywhere.
