Project Update: Jasper Interconnection Project

Dear Stakeholder,

In January 2017, ATCO Electric sent you information about proposed transmission developments in the Jasper area. The Jasper Interconnection Project is needed to replace aging infrastructure and connect Jasper National Park to the Alberta Interconnected Electrical System (AIES). The project will be located approximately 8 kilometres (km) north of the Town of Jasper. If approved, the Jasper Interconnection Project will include the construction of approximately 45 km of new 69-kilovolt (kV) transmission line, and a new substation.

This letter is to advise you that the Detailed Impact Analysis is available for Review and Comment until April 21, 2017. The Detailed Impact Analysis is available on ATCO Electric's Project website.

<http://www.atcoelectric.com/Projects/ProjectPages/Jasper-Interconnection-Project>

ATCO Electric representatives will be available at an open house to share information, gather your input and address any questions or concerns you may have related to the Detailed Impact Analysis. Project information and displays will also be on hand for you to review. Please join us and provide feedback on the Jasper Interconnection Project and the Detailed Impact Analysis.

April 6, 2017

Sawridge Inn and Conference Center

76 Connaught Drive, Jasper, AB

4:00 pm – 8:00 pm

If you have any questions or comments regarding the Jasper Interconnection Project, please contact me at your earliest convenience.

Sincerely,
