WHY ATCO?

ATCO has more than 100 years of experience delivering natural gas safely and reliably to customers around the world. We offer a workforce of trained, experienced and certified personnel for virtually every job, and deliver on-time service across the province. As Alberta’s premier natural gas distributor, we promise:

- A team of expert technicians who deliver dependable service
- An unmatched commitment to safety
- A company you can count on

OUR SOLUTIONS

Why wait until your construction project is completed to get a natural gas line installed? With ATCO's Construction Energy services, you don't need to wait. You can use natural gas to provide energy onsite during all phases of construction. Natural gas is a cost-effective alternative to traditional fuels such as diesel or propane, and the installation is simple and fast. Contact us early in your development process to access construction energy for your project. What can we offer?

Equipment of Variable Sizes

- Our construction heaters range in size to meet your heating needs from concrete curing to the drywall stage
- Our natural gas generators range in size to provide onsite power through the entire construction process.

Natural Gas Heaters	Natural Gas Generators
100 - 200K BTU Indirect Fired	18kW Prime Rated
400 - 500K BTU Indirect Fired	35kW Prime Rated
700 - 800K BTU Indirect Fired	25kW Prime Rated
50 - 99K BTU Direct Fired	55kW Prime Rated

150 - 199K BTU Direct Fired

Please contact us for more information on pricing for unit sizes not shown here

Site Assessment and Installation

- We provide a detailed site analysis and recommendations to meet your energy needs
- Our team can look at options for temporary natural gas supply if needed

Safe and Reliable Natural Gas

- Our solution delivers an uninterrupted supply of natural gas
- We provide scalable options for residential, commercial or industrial construction projects

WHY CHOOSE ATCO'S CONSTRUCTION ENERGY SOLUTION?

Save up to 60% on fuel costs

- Natural gas is less expensive than propane and diesel, in fact it's 6x cheaper than diesel

Increase productivity and reduce labour costs

- An unlimited supply of natural gas can reduce downtime
- No labour is required to change out, track or re-order propane tanks

Access to reliable and convenient energy

- Using one energy source provides for a continuous and reliable supply of heat and power throughout construction

Improve site safety

- Your staff do not need to move heavy propane tanks

Straight-forward billing

- You only pay for the fuel you use
- You receive a single monthly gas bill reflecting your actual usage
