

# Pembina Keephills Transmission Line

## Frequently Asked Questions

Question: Have any local companies been contracted to supply services to the project?

Answer: Yes, many local companies and their employees are providing services, including brushing, line locating, hydrovac, trucking, heavy equipment repair, and supplying materials.

Q: Where is labour being sourced for the Pembina Keephills Transmission Line project?

A: Over 90% of the workforce call Alberta home. The project labour and subcontractors include local Alberta based and Indigenous workers and businesses.

Q: What is the estimated economic benefit for Drayton Valley and the surrounding area?

A: ATCO estimates that the project will bring \$12 million into the community, through accommodation, meals, entertainment, services, and other means.
